

EMPOWERING PROGRESS. SIMPLIFYING AUTOMATION.

Integrion Automation is a premier provider of robotics and automation solutions, delivering advanced engineering, equipment and technology solutions to meet the unique needs of our customers. From best-in-class materials handling systems to integrated component solutions, we earn customer trust by operating with integrity.

■ Over 40 Years of Experience

Established in 1983, and with over 450 successful robotic integrations, we have the experience to assist you on any project as a trusted partner.

■ Total Solutions Provider

With proven expertise in vision, factory automation, force sensing, line tracking, collaborative robots, and custom solutions we're your go-to systems integrator.

■ Total Life-Cycle Support

Our field service team is dedicated to providing you with comprehensive support, offering preventative and general maintenance, repairs, retrofits, troubleshooting, warranties and spare part assistance.

■ Vertically Integrated

Our systems are designed, fabricated, built and programmed in-house, assuring single-source continuity.

■ Quality-Focused

Our APP Phase process ensures consistent, repeatable results, backed by our TUV-certified engineers and technicians who uphold our industry-leading quality standards.

■ World-Class Customer Service

We are proud to provide best-in-class customer service, including connecting customers directly with in-house experts.

■ A Culture of Integrity

We operate with integrity, with every customer, every time, staking our reputation on the quality experience we deliver to every customer.

EXPLORE OUR AREAS OF EXPERTISE.

■ Automation Solutions

We design, engineer, and integrate custom **Automation Solutions** to streamline your manufacturing and processing lines. Our systems, including robotic integration and advanced controls, are built to boost efficiency, increase throughput, and ensure repeatable quality for your most critical operations.

■ Tube Forming Technologies

We are your expert provider of precision **Tube Forming Technologies**, offering equipment and expertise for all your forming, bending, swaging, and trimming requirements. We deliver reliable, high-quality solutions designed to meet the tight tolerances and complex geometries of modern industrial tubing.

■ Field Service

Our dedicated **Field Service** team provides expert installation, maintenance, troubleshooting, and repair for your Integrion equipment and other integrated systems. We offer rapid-response support and preventative service contracts to maximize your operational uptime and ensure long-term performance and reliability.
